

DNI Sentinel Horizon + Recorded Future

What is Sentinel Horizon?

The Office of the Director of National Intelligence (ODNI) initiated a transformative 5-year collaboration with Recorded Future, set to revolutionize intelligence access and sharing across the U.S. Intelligence Community (IC). This partnership grants members of the U.S. IC unprecedented access to historical and real-time intelligence on cyber and geopolitical developments, marking the largest infusion of unclassified intelligence in U.S. IC history.

What is Recorded Future?

Recorded Future, the world's largest threat intelligence company, delivers actionable, real-time intelligence derived from a vast range of trusted sources, including open web, dark web, and technical sources in support of mission operations.

What Resources are Available?

U.S. Intelligence Community members can leverage the following threat intelligence resources from Recorded Future's Insikt Group, our in-house intelligence analysis and production team:

- Unclassified, cyber and geopolitical threat **intelligence reporting**
- **Unclassified RFIs** (submitted through the Sentinel Horizon PMO)
- *[Requires coordination with Sentinel Horizon PMO and Recorded Future]* Unclassified **threat briefings**
- *[Requires contract modification]* Unclassified, commercial cyber threat intelligence **data**
- *[Requires contract modification]* Recorded Future's SaaS platform access - **trial licenses** readily available
