

Recorded Future for Maltego

To effectively mitigate risk, security teams need to move at least as fast — but ideally faster — than threat actors and their tactics. Analysts must manage and analyze disparate data sources in real time, but manual collection and organization slows threat detection and attribution.

To meet these challenges, the Recorded Future integration for Maltego enables security teams to automatically connect the dots between related entities by discovering and validating known threat indicators in the vast expanse of the open, deep, and dark web.

Contextualized Intelligence

Relevant insights, updated in real time, and integrated with your existing infrastructure drive faster, more informed security decisions. Recorded Future's elite security intelligence layered over Maltego gives analysts visibility into which indicators should be prioritized based on a real-time Recorded Future risk score that is backed by transparent evidence. This allows analysts to spend less time researching and more time remediating.

Using a sophisticated combination of patented machine and expert human analysis, Recorded Future fuses an unrivaled set of open source, dark web, technical sources, and original research to deliver relevant threat insights in real time. The Recorded Future integration for Maltego makes it simple and fast to access this elite intelligence within Maltego for deeper investigations, empowering security teams to identify threats faster.

Recorded Future's out-of-the-box transforms for Maltego provide real-time context on IP addresses, domains, hashes, malware, and vulnerabilities. With access to Recorded Future risk scores, risk rules, Insikt Group Analyst Notes, and more, analysts can easily connect the dots in their investigations and effectively prioritize remediation efforts — all from within Maltego.

BENEFITS:

- Gain instant context on IOCs for faster investigation and visualization
- Streamline analysis workflows with a unified view of intelligence
- Respond quickly with transparency and context
- Maximize your investment in Maltego

RESULTS*

- Identify 22% more security threats before impact
- Improve security team efficiency by 32%
