Recorded Future Certified Analyst Lab and Examination

Key Audience: Cyber Threat Intelligence Analysts (Advanced and Threat Intelligence Licenses)

Course Description: Our threat intelligence course trains analysts and users in common threat intelligence principles and fundamentals. The goal of the Certified Analyst Lab is to create analysts who are able to answer difficult information security research questions. Through creative thinking, problem-solving, and analytical skills, attendees will unlock the full potential of the Recorded Future® Platform, locate relevant data, create information, and generate intelligence using advanced workflows.

This 4-day virtually delivered course is a combination of live instruction, group discussions, and hands-on activities. Attendees will complete daily knowledge checks and a final cumulative exam in Recorded Future University.

Successful candidates will demonstrate clear and thorough knowledge of threat intelligence principles through data visualization and successfully identifying necessary information from a set of intelligence requirements. Successful candidates will receive a Recorded Future Certified Analyst numbered certificate to use on their physical and digital resume.

Prerequisites: Exclusive to Recorded Future customers who have completed initial onboarding, taken the Certified User Course, and have used the product for at least 6 months.
